1. Claims 1-6 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Lee et al. for the same reasons as set forth in paragraph 2 of the first office action filed 5-24-05.

Applicant's arguments filed 8-12-05 have been fully considered but they are not persuasive. Applicants' argument that Lee et al. does not disclose donor to receiver spacing is unconvincing since Figure 13 in Lee et al. shows the donor placed on the receiver. A flat transfer pattern is disclosed as desirable and being obtained in Lee et al by the use of flat laser beam profiles on thermal transfer donors placed on the receivers. Spreading of material during transfer would be minimal in Lee et al. since the donors and receivers are not spaced during transfer.

2. Applicant's election of group I in the reply filed on 8-12-05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
